**DALI STILE Series**

## DALI STILE Series

When creating the DALI STILE speakers the designers were clearly inspired by the latest Scandinavian design trends. The result is a series of compact, stylish speakers with a sleek, high gloss lacquered finish. The name “STILE” links to the Danish word for “style” and that is what the new DALI STILE series is all about!

The market for “design speakers” is most often characterized by a “below mediocre” level of sonic performance due to severely compromised components and materials. The STILE A/V speaker system in fact contradicts this and challenges existing market standards by offering solid HiFi sound although wrapped in a trendy slim package.

### DALI STILE A/V speaker system features:

- Wood fibre cone technology with low mechanical loss for optimum combination of low mass and agile response combined with ultimate stiffness and natural sound decay (TOWER, VOKAL and REAR)
- Bass reflex tuned cabinet systems for optimized bass output, reduced distortion and coloration (TOWER, VOKAL and SUB)
- Soft dome tweeters for pleasant and “musical” harmonic reproduction (TOWER, VOKAL and REAR)
- Ultra-short signal path / minimum phase crossover topology, minimizing loss of information

### DALI STILE TOWER features:

- Ultra-slim yet potent and punchy main speaker
- 3 x 4” bass/mid drivers
- 1” soft dome
- Integrated base with optional spikes for maximum floor placement stability. Designed to be placed close against a rear wall

### DALI STILE VOKAL features:

- Compact yet capable dialog speaker with ultra-high speech intelligibility
- 2 x 4” bass/mid drivers
- 1” soft dome
- Uniform sound dispersion - optimizing the sound experience also for those not seated in the sweet spot

### DALI STILE REAR features:

- Dedicated surround speaker
- 1 x 4” bass/mid driver
- 1” soft dome
- Ultra-compact, sealed enclosure allowing placement close to boundary (wall, shelf, corner)
- Built-in keyhole type wall bracket
- High impedance (8 ohms+) for extra gentle loading of the amplifier outputs

### DALI STILE SUB features:

- 1x10” long-stroke paper pulp high-power woofer
- Twin port down-firing bass reflex design, for reduced turbulence
- 200-Watt true analog amplifier with linear power supply
- Shallow design - occupying minimum of floor space when placed close to rear wall
- Line level AND loudspeaker level signal inputs

Technical Specifications:	TOWER	REAR	VOKAL	SUB
Frequency Range +/- 3 dB [Hz]	43-22,000	75-22,000	70-22,000	30-200
Sensitivity [2.83 V/1m] [dB]	89	83	89	-
Nominal Impedance [ohm]	6	8	8	-
Maximum SPL [dB]	110	103	108	112
Recommended Amp Power [Watt]	30-150	50-100	30-100	-
Max Amplifier Power Output [Watts RMS]	-	-	-	200
Continuous IEC Power Output [Watts RMS]	-	-	-	140
Maximum Power Consumption [Watt]				300
Input Impedance [kohm]				22k
Crossover frequencies [Hz]	2,400	2,300	2,000	70-180
Bass/mid drivers [inch]	3 x 4” WFC	1 x 4” WFC	2 x 4” WFC	1x10”
High Frequency Driver(s) [inch]	1 x 1”	1 x 1”	1 x 1”	-
Enclosure Type	Bass Reflex	Closed	Bass Reflex	Bass Reflex
Connection input(s)	Single-wire	Single-wire	Single-wire	RCA Stereo (LP filtered) LFE (Mono)
Recommended Placement	Floor, close to wall or free field	Wall/shelf/stand close to wall	Shelf/table/stand close to wall	Floor, close to wall
Magnetic Shielding	No	No	Yes	No
Dimensions [HxWxD] [mm]	1040 x 230 x 254	205 x 137 x 160	137 x 460 x 165	385 x 500 x 210
Weight [kg]	10.3	2.2	4.4	14.1
High gloss lacquer finish	Black	Black	Black	Black
