- 1 x set of telescopic runners
- 1 x cast iron wok support trivet
- 1 x stainless steel kick plate
- Propane Conversion kit

Warranty

BLANCOCare™ 2 years parts & labour.

Features

Benefits

150L Grand Capacity

With the largest freestanding oven capacity on the market, the new BLANCO BFD915WX, can cook even the largest feasts, with perfect results every time. The BFD915WX has been designed to make cooking for large groups quick and easy.

BLANCO MultiFan System

The new BLANCO MultiFan system has four fans that present four times the efficiency of a standard freestanding cooker. The four fans guarantee homogeneous heat distribution and affords perfect cooking results every time. Food can be placed on any shelf position or on multiple levels with optimum results achieved.

Dual Fan Elements

In addition to the unique BLANCO MultiFan system, the BFD915WX also features diagonal circular elements. These elements are perfectly designed and calibrated to surround food in a uniform fashion in order to obtain optimum cooking results on all levels.

Automatic Rapid Heat Up

Featuring Automatic Rapid Heat Up the BFD915WX gets to 200°C in a shorter time than any other freestanding cooker on the market. The Automatic Rapid Heat Up is aided by the additional fans and elements and is based on a balance between oven capacity and heat up time versus standard freestanding cookers.

Real Multi-Level Cooking

The unique cavity design of the BFD915WX allows for seven shelf positions and six true cooking levels. This is primarily due to the height of the cavity which allows you to cook multiple trays of food together, unlike standard 90cm cavities, that may be 'large' but not high.
