

Proposed changes / Branstom

to this N
Breactivate

I would recommend
to put detention basin
Here, even if made tank
wider, spoil from tank
to make the Berm or
reuse onsite.
to Add each
to the lots.
3 lots / 858

NOT A PART
OF THIS APPROVAL

Notes:
The information on this plan is prepared for concept purposes only and should not be used for any other purpose. The builder should verify critical dimensions shown on this plan with the latest approved design drawings. Any discrepancies should be clarified in writing with Doherty Smith and Associates prior to commencement of the work. This note is an integral part of this plan.
